

**REMARKS**

Formal Drawings are submitted herewith, in accordance with the requirements of the Examiner.

The Examiner has indicated, in the outstanding Final Rejection, that Claims 27 - 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In response to the Examiner's Objection, Applicants have canceled Claim 29 and amended base Claim 26 to include therein the limitations of Claim 29. Accordingly, base Claim 26, as amended, would be allowable, as indicated by the Examiner. In addition, Claim 30 previously dependent upon Claim 29, has been amended to depend upon amended base Claim 26.

Dependent Claim 27 has also been canceled and rewritten in independent form as new independent Claim 32 to include all of the limitations of base Claim 26 and the material defining limitations of dependent Claim 27.

In addition, dependent Claim 31 has also been canceled and rewritten as new independent Claim 33 to include all the limitations of base Claim 26 and the printed circuit board limitation of dependent Claim 31.

Remaining independent Claim 28 already depends upon allowable-as-amended base Claim 26.

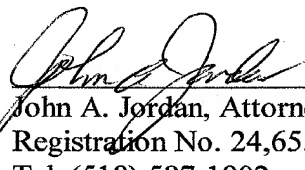

In view of Applicants' amendment, Applicants believe that the application is now prima facie, in condition for allowance. Accordingly, Applicants respectfully request the

Examiner to withdraw the final rejection, enter the amendment as proposed, allow the claims as now presented and pass the case to issue.

Respectfully submitted,

Gregg J. Armezzani, et al.
